

Birthday Flowers

Flowers are always a wonderful birthday gift for someone you care about whether a relative, friend or sweetheart. As a special treat and talking point you might wish to select flowers that are associated with the month the recipient was born. These could be part of a mixed arrangement or bouquet or as a feature flower highlighted with foliage. Your florist will be able to advise you on the best way of presenting the particular flower to suit its colour and characteristics.

There is some variation in the flowers that are associated with each birth month around the world.
