

DO YOU KNOW HOW HYDROPONIC TOMATOES ARE GROWN?

We want to teach you...

Come and visit the Flavorite farm in Warragul, Victoria and we'll show you how hydroponic tomatoes are grown from seedling through to the sweetest, most delicious tomato you've ever tasted.

Enjoy a tour, sample our mouth-watering tomatoes and enjoy the fresh country air.

We are happy to conduct weekday tours for upwards of 20 school aged children. Flavorite Tomatoes are committed to encouraging healthy nutritional habits from an early age and want to make this a fun learning, hands on experience.

We look forward to discussing your schools requirements, give me a call on 0425 753 314.
